Jason Edwards

PROFILE

Electrical, Plumbing & HVAC Technician with 20+ years of hands-on troubleshooting and repair experience. Diagnoses electrical circuits, relays, motors, and low-voltage controls using multimeters and wiring schematics. Traces plumbing leaks, repairs supply and drain lines, and restores pump and valve operation. Troubleshoots HVAC equipment through electrical testing, control-circuit checks, and component-level fault isolation. EPA 608 Universal certified and OSHA 30 trained, with trade diplomas in electrical, plumbing, HVAC, and appliance repair.

EXPERIENCE

04/2020 - 05/2025 | WINTER SPRINGS, FL

Pool Technician / Maintenance Technician

Clear and Blue

- Monitored commercial and residential pool chemistry; balanced pH, alkalinity, and sanitizer levels to maintain safe water conditions across assigned route properties.
- Diagnosed circulation pumps, variable-speed motors, impellers, mechanical seals, PVC manifolds, and filtration systems; repaired faults to restore flow and pressure.
- Performed equipment inspections, filter tear-downs, and preventive servicing; identified seal, bearing, and electrical wear before equipment failure.

02/2017 - 03/2020 | MARIETTA, GA

Lead Maintenance Technician

Piedmont Creek Residential

- Led maintenance for a 180-unit residential property; prioritized work orders, coordinated vendors and repairs, and responded to on-call emergencies.
- Isolated faults in split-system HVAC, 120V/240V circuits, 24V control wiring, and plumbing using multimeters, gauges, and electrical schematics.
- Completed preventive maintenance, in-house HVAC and appliance repairs, and full unit make-readies; coordinated work to meet occupancy deadlines.

11/2005 - 11/2016 | ROSWELL, GA

Pool & Multi-Family Facilities Technician

Oconee Property Group

- Completed apartment turns covering drywall, subflooring, carpentry, plumbing fixtures, electrical devices, and major appliances under move-in deadlines.
- Serviced pool pumps, motors, valves, filtration assemblies, and chemical controls; tested water chemistry and adjusted treatment for safe operation.
- Traced supply and drain-line leaks; removed water-damaged materials, repaired subfloors, and restored flooring and interior finishes.

08/2000 - 10/2005 | MARIETTA, GA

Maintenance Technician

Kennesaw Ridge Hospitality

- Resolved guest-room and facility work orders involving PTAC/HVAC units, electrical circuits, plumbing fixtures, and appliances in occupied hospitality facilities.
- Performed electrical and mechanical diagnostics using lockout/tagout procedures; replaced failed motors, switches, heating elements, and valves.
- Completed room-turn repairs, drywall patching, painting, fixture replacements, and preventive inspections to maintain safe, serviceable guest rooms.

SKILLS

- Electrical Diagnostics & Repair
- Facility Maintenance
- HVAC Diagnostics
- Preventive Maintenance
- Leak Detection & Repair
- EPA 608 Universal Certified
- Pump & Motor Diagnostics
- Water Chemistry Balancing
- Carpet & Flooring Installation
- OSHA 30 Safety Compliance
- Plumbing Fixture & Line Repairs
- Hazardous Material Handling
- Process Improvement
- Emergency & On-Call Maintenance

EDUCATION AND TRAINING

Bachelor of Science | Computer Science
University of Phoenix
Cum Laude

Associate of Arts | Information Technology
University of Phoenix
Magna Cum Laude

CERTIFICATIONS

2020
OSHA Lockout Tagout Training

2022
OSHA 30 - General Industry
